Dear Mr. Phillips:

The Nevada Division of Environmental Protection (NDEP), Bureau of Corrective Actions, has reviewed your Training proposal for Operator Training in the State of Nevada. Based on the information submitted, this office concurs with your training program as submitted and grants you approval to operate as an "Approved Operator Trainer" for the State of Nevada in teaching and certifying owners/operators in Nevada in accordance with the Energy Policy Act of 2005, Title XV, Subtitle B of the Underground Storage Tank Compliance Act.

Prior to operating in the State of Nevada a Nevada Business license must be obtained.

Teaching/certification may proceed immediately with the caveat that prior to February 15, 2012 all certifications may be at risk if the State Environmental Commission (SEC), scheduled to meet for approval of the "Operator Training Proposed Regulation" on that day, does not take action on this proposed regulation.

Please ensure that the State of Nevada Emergency Spill Hotline number is listed in your training. The numbers are 775-687-9485 or 888-331-NDEP (6337).

If you have any questions, please contact me at either kevins@ndep.nv.gov or 775-687-9376.

Sincerely,

Kevin E. Sullivan
UST/LUST Supervisor
